## Boatwork Recommendations

January 8, 2017

by Jody Aston, Editor and Publisher

Some cruisers on the Rio Dulce have had boatwork done recently (imagine that!) and were very pleased with the workmanship. In fact, they were such satisfied customers they contacted the Rio Dulce Chisme wanting to make their recommendations known to the boating community.Â

Rick (Smitty) and Nancy contracted Rony, of Rio Dulce Canvas, to make a dinghy cover and then a boat cover for SV Angel Eyes. The quality of work was excellent, as was the professionalism with which it was done. Smitty and Nancy were especially impressed that Rony showed up when he said he would, or called to let them know if he was not going to make an appointment for some reason.

Judy and Woody were also pleased with the work done on their catamaran, SV Lapis. They had a hard bimini made and installed by another local worker, Oskar. Again, the quality was top-notch and Oskar is a hard-working, polite young man who does general boatwork, gel coating, anti-fouling, etc., in addition to fiberglass work like on the bimini. Contact information is as follows: Rio Dulce Canvas, 5723-9848 or 5218-7858, and email [riodulcecanvas@gmail.com](mailto:riodulcecanvas@gmail.com). Oskar can be reached at 4931-3183. The phone numbers have been included on the Rio Dulce Chisme menu item "Rio Phone Numbers," found on the left side of the front page.
